Subject: RE: Question on Invenergy

Hi Joann,

Thanks for reaching out to clarify. In short, providing EPA with the RTC is not a statutory requirement, but I would appreciate a copy of the permit and response document if you are willing to share it in advance.

Under title V there are the requirements for an RTC/proposed permit review period and petitions process. But for major NSR permits, there is just the authority for the EPA administrator to issue a stop work order if there are issues with the final permit.

Subject: Question on Invenergy

Riley,

As it is an NSR/PSD permit, do you need to review the Invenergy installation permit before we issue? If not, we plan on issuing it next week.
